

EVERY DOOR DESERVES A **dorsët**

Whether you're a homeowner, an architect or a builder dedicated to excellence, every home you build holds a unique story, woven with memories, dreams, and aspirations.

At Dorset, we believe that every door is not just an entrance but a gateway to a world of possibilities, an embodiment of your home's character and charm.

Our commitment goes beyond mere furnishings; it's about infusing your space with the essence of quality and world-class craftsmanship that resonates with your soul.

We understand that more than just security, you seek peace of mind. That's why we meticulously curate our selection to protect more than just your material possessions. We believe in safeguarding your sentiments and embellishing it more safely and more securely.

That's why we say

EVERY DOOR
DESERVES A
dorsët

Company Profile

With a legacy spanning three decades, Dorset stands as a pioneering force in the door hardware industry. Since its inception, the brand has consistently reimagined how spaces are secured and experienced—transforming everyday utility into enduring design and dependable protection. Expertise extends across a comprehensive range of hardware solutions for doors, kitchens, and furniture. From essential fittings to advanced, technology-driven systems, the product range caters to diverse requirements—seamlessly blending traditional craftsmanship with modern innovation.

The portfolio includes door hardware, door handles, locks, door control systems, glass fittings, digital locks, furniture fittings, and kitchen hardware—each engineered for performance, durability, and aesthetic appeal.

At the core of operations is a robust Make in India manufacturing ecosystem, anchored by a world-class, state-of-the-art facility. Supported by four dedicated R&D cells, the focus remains on merging precision engineering with smart automation to develop the hardware of the future. Sustainability is embedded in the manufacturing process through energy-efficient operations, responsible sourcing, and waste reduction practices.

Beyond securing spaces, the purpose is rooted in a deeper understanding—that every entryway holds emotion, memory, and meaning. The commitment goes beyond quality, aiming to safeguard the sentiment that resides behind every door.

More than just hardware, Dorset represents a promise—of trust, safety, and design excellence. Because every door deserves a Dorset.

Turning Every Door Into A Story Of Security

Because Locks Aren't Just Hardware Anymore. Today's doors do more, and so should their locks. Dorset digital locks combine technology with convenience—offering faster access, smarter features, and tighter control.

We turn every entry point into a smarter experience.

Dorset Smart Life

Dorset Smart Life is an app designed to control and manage digital locks. This easy-to-use app helps you get smart devices interconnected and brings you comfort and peace of mind.

Digital Access

In a world that moves faster each day, convenience and control are no longer luxuries—they're expectations. From the moment you step toward your door, the experience should be seamless, secure, and in tune with your lifestyle.

Digital locking solutions have brought a new level of ease to everyday living. No more fumbling, no unnecessary delays—just smooth, intuitive access that keeps up with you.

Technology Meets Trust.

Style Meets Security.

And what was once routine is now remarkably effortless.

Access Modes

The system supports multiple unlocking methods, allowing for versatile application across a wide range of settings. Each mode is designed to offer reliable performance, ease of use, and compatibility with modern security preferences.

3D Face Recognition

Detects and verifies your face in 3D for fast and touch less entry

Palm Vein Scan

Uses biometric recognition of your palm's unique vein pattern for high-level security.

In-Built Video Door Phone

Lets you see and speak to visitors through a screen before unlocking the door.

360° Finger Print

Recognizes your fingerprint from any angle for a seamless unlock experience.

Mobile Access

Unlock your door using a smartphone app – anytime, from anywhere.

Password

Set a secure numeric PIN to access the lock easily.

RFID Card Access

Tap an authorized RFID card to unlock the door instantly.

Mechanical Key

A traditional key backup for emergencies or power failures.

OTP Access

Share a time-limited One-Time Password with guests for temporary access.

Amazon Alexa

Unlock your door effortlessly using voice commands through Alexa-enabled devices.

Google Assistant

Control and access your lock hands-free with Google Assistant voice support.

Smart Watch

Open your door conveniently right from your wrist using your connected smartwatch.

Smart Features

Engineered to integrate modern technology with everyday security needs. These features enable the system to respond dynamically to varying situations, optimize user interaction, and support seamless functionality within residential and commercial environments.

Anti-theft Password

Add random digits before or after your password to protect it from prying eyes.

Audit Trail

Keeps a digital record of who accessed the lock and when—ideal for monitoring.

Intrusion Detection System

Alerts you if someone tries to tamper with or forcefully open the lock.

In-Built Video Door Phone

Lets you see and speak to visitors through a screen before unlocking the door.

Video Surveillance

Captures and stores video footage at the entrance for added security.

Admin Control

Gives the primary user full control to manage access and settings for others.

OTP Access

Share a time-limited One-Time Password with guests for temporary access.

Drained Battery Quick Fix

Emergency power backup option (like a USB port) in case of battery failure.

Dual Authentication

Requires two modes (e.g., fingerprint + password) for added protection.

Notification Bell

Notifies the user with a bell sound when someone rings the door lock.

HD Wide Angle Camera

Provides a clear, wide view of visitors outside the door.

Emergency Exit

Allows easy unlocking from inside in case of an emergency—no code or key required.

Alarms

Integrated alarm functions respond to key security events including tampering, low battery levels, and unauthorized access attempts. These alerts help ensure continuous monitoring and reinforce the overall security infrastructure.

Fire Detection Alarm

Built-in sensor triggers an alarm in case of fire or sudden temperature rise.

Intrusion Alarm

Activates when forced entry or unusual activity is detected.

Lock Engage Alarm

Alerts if the lock is not properly engaged or left open.

Low Battery Alarm

Notifies you in advance when the lock battery is running low.

Locking Modes

Multiple locking configurations are available to meet diverse usage scenarios. Whether prioritizing automatic engagement, manual operation, or privacy settings, the system provides adaptable options to support different requirements.

Auto Locking Mode

Automatically locks the door after a set time when closed, ensuring safety.

Privacy Locking Mode

Disables all access from outside—perfect for when you want total privacy.

Manual Locking Mode

Lock and unlock your door manually for added assurance and control during emergencies or power outages.

VOGUE +

Smart, multifunctional locking with a sleek push-pull design—perfectly blending style and security for connected living.
