

EVERY DOOR  
DESERVES A  
**dorsët**

Whether you're a homeowner, an architect or a builder dedicated to excellence, every home you build holds a unique story, woven with memories, dreams, and aspirations.

At Dorset, we believe that every door is not just an entrance but a gateway to a world of possibilities, an embodiment of your home's character and charm.

Our commitment goes beyond mere furnishings; it's about infusing your space with the essence of quality and world-class craftsmanship that resonates with your soul.

We understand that more than just security, you seek peace of mind. That's why we meticulously curate our selection to protect more than just your material possessions. We believe in safeguarding your sentiments and embellishing it more safely and more securely.

That's why we say, '**every door deserves a Dorset**'.

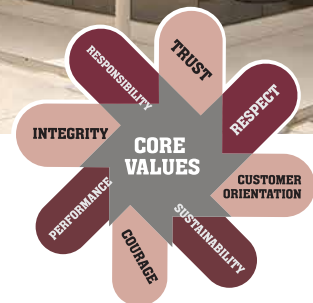

## VISION

To be an Enterprising, Innovative and profitable global supplier of total access products for homes and Workplaces and to be an employer who understands the importance of creating value for all Stakeholders.

## Mission

"Dorset Inside" we shall strive to create Innovation, Value based and Trust worthy products for all establishments to ensure safe and secure living & working environment

# dorsët

An organization with over 29 years of experience as a reputed manufacturer of architectural hardware and provider of high security locking solutions.

We combine new age aesthetics with cutting edge technology.

Our collection includes Architectural Hardware, Door handles, Door Locks, Door Control Devices, Glass Hardware, Door Accessories, Digital Locks, Furniture Fittings & Kitchen Hardware.

Equipping ourselves with the powers of Automation, Emerging Technologies backed by a full-fledged research unit comprising four independent R & D cells dedicated to ushering in tomorrow, today.

At the heart of it all is our understanding of the evolving technological scenario and changing consumer needs.

We understand that in order to stay ahead we have to keep innovating to keep delighting our customers.

# profile

**Our technical process and advanced machinery are the key factors of our innovative drive as we continue to pioneer the way we offer solutions, in the way we deliver value, and in the way we maintain our quality assurance.**

Our Manufacturing Engineering making use of latest TQM techniques like JIT, VSM, SPF, SMED and automation methods acts as a critical linkage between design & manufacturing departments, helping us deliver outstanding products with short turnaround time. The raw materials are sourced only from the best suppliers & they all undergo rigorous testing at the early cycle for impeccable product quality. To carry out various operations on the components, we have world class CNC machines, SPMs and other conventional machines capable of unprecedented detail and accuracy.

strength

Sustainability is one of the core values practiced by Dorset and our commitment to it is absolute. Respect for nature and natural resources, responsible use of scarce resources, giving back to the community, and making the world a better place for future generations are important goals aimed at and practiced by Dorset.

We understand the importance of being a responsible corporate citizen. Hence our approach towards sustainable development is at par with the best practices followed in the industry, worldwide. Our environment management team is continuously involved in trying to find new ways to ensure improvement in our environmental performance. We also make sure that we are in compliance with all applicable environmental legislation and regulations. We regularly conduct environmental awareness programme for all our employees. All our manufacturing facilities are geared towards reducing air, water and soil pollution, waste generation and natural resources consumption.

# environment

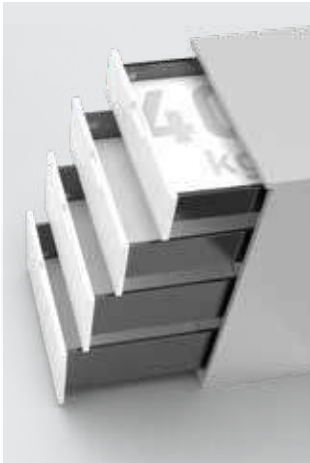

A grid of dark gray circular discs with holes in the center, arranged on a wooden surface. The discs are arranged in a staggered pattern, with some rows having more discs than others. The wooden surface has a visible grain pattern.

DIGITAL LOCKS

Dive into the world of smart security with our complete digital lock range - crafted for the future!

Over the years, progress in lifestyle has led to a bigger role for the traditional key beyond ensuring home security and determining who gets in and who stays out. Today the key has evolved to become an intelligent and integrated digital device that provides higher security, greater convenience and smarter living.

# Cloud based E-Key System

A revolutionary new technology invented and made available for the first time ever in digital door lock security. This function allows sending tailor-made access rights to anyone through a smart phone. There are various type of E-Keys available suiting various situations and needs - One-time, recurring, permanent, time-sliced duration type of keys. Our cloud based E-Key system allows for real time one time Passwords (OTP) for guests to access the lock while using the same for various situations.

OTP ACCESS

GUEST ACCESS

TEMPORARY ACCESS

PERMANENT ACCESS

Our Unique Mobile Application with an intuitive user Interface gives various user notifications when a registered family member accesses the home. Our Unique Cloud Key system is also ideal for guests and short-term tenants. The property owner or host can issue e-keys from anywhere in the world and conveniently manage access rights through, their smart phones.

## CONSTRUCTION HANDLE | CNSORPP

During Construction

**During Construction**  
Only Construction Handle Being Used

**Home Possession**  
Once Construction is complete,  
Replace the Construction Handle With New Fresh Handles

After Possession

**Thereafter**  
Once You Enter Your New House,  
Experience Your New Products Installed at the door

PRESERVATION  
OF FINISHES

EFFICIENT ACCESS

COST-EFFECTIVE  
SOLUTION

TAILORED  
CUSTOMIZATION

**Preservation of Finishes:** Temporary handles prevent damage to delicate materials and finishes, ensuring the quality of the final product.  
**Efficient Access:** Quick installation and removal of construction handles enable easy access to doors and cabinets during the construction phase.  
**Cost Effective Solution:** Using less expensive temporary handles saves costs compared to installing final handles initially.  
**Tailored Customization:** Construction handles are chosen for practicality, while final handles can be selected based on Aesthetics, allowing for a balance between functionality and design.

# Prestige Line

Prestige Line: Elevate Your Interiors with Uncompromising Excellence. Renowned for its premium craftsmanship, this collection of door handles exudes opulence and sophistication. Experience the epitome of luxury and style with Prestige, setting a new standard in the world of high-end hardware solutions.

**Stainless Steel Lever Handles  
Also Available in SS 316 Grade  
(on Special Order)**

Four metallic pull handles are arranged diagonally on a wooden surface. From top to bottom, they are: a smooth, rounded handle; a handle with a rectangular cutout; a handle with a wide, flat, rectangular base; and a handle with a wide, flat, rectangular base and a slightly flared end. The handles have different finishes, including brushed metal and polished metal.
